1 At a glance

example.com scores 93 out of 100, with a possible range of 84–96. 2 to fix now, 1 to verify before acting, and 4 could not be measured reliably.

2	1	4	7	3
FIX NOW	VERIFY FIRST	MEASURE NEXT	BACKLOG	SET ASIDE

SCORECARD

AUDIENCE	SCORE	POSSIBLE RANGE	COVERAGE	RATING
Overall	**93**	84–96	88%	STRONG
Humans	90	77–95	81%	STRONG
Search engines	95	87–98	88%	STRONG
Security & trust	95	95–95	100%	STRONG
AI search	95	88–97	91%	STRONG
AI agents	89	82–90	92%	SATISFACTORY
Email inbox	96	76–100	76%	STRONG

Dot = expected score. Bar = possible range, from every unmeasured check failing to every one passing. Ticks at 60, 75 and 90. Strong starts at 90, Satisfactory at 75, Needs work at 60.

THREE THINGS TO KNOW

RISK
I-03

Inbox compliance can't be confirmed: DKIM is unverified

SPF and DMARC pass (3 of the email checks), but DKIM was skipped. Gmail, Yahoo and Outlook.com require SPF, DKIM and aligned DMARC for senders of 5,000+ emails a day; Outlook.com has enforced this since May 2025. One config change to the probe (ESP selectors) closes this gap.

Next step: DKIM not verified (measure next) · Based on email.dkim_selectors, email.spf_exists, email.dmarc_exists, email.dmarc_policy

RISK
I-06

Privacy/terms pages weren't found where people and agents look

Either they're missing (a legal exposure under GDPR/CCPA) or they sit at non-standard paths that buyers, crawlers and agents don't find. Either way the fix is the same: link them from the global footer and list them in the sitemap.

Next step: Privacy policy not found (verify first) · Based on trust.privacy_page, trust.terms_page

OPPORTUNITY
I-15

Agent readiness is Level 2 of 5 (Bot-Aware); Markdown negotiation reaches Level 3

5 of 7 Content Site checks pass (comparable score 71). Level 3 needs one server rule that answers Accept: text/markdown, usually under an hour. API, OAuth and MCP files are not expected of a content site and don't count against it.

Next step: Add Markdown negotiation (see the Agent protocol section) · Based on agent.protocol_level, agent.content_signals, agent.ai_user_agent_robots_info, agent.link_headers, agent.markdown_negotiation

2 Action plan

Priority (P1–P3) is value for effort and appears only here. Severity in the findings register is impact, and the two are not the same scale.

PRI	ACTION	OWNER	EFFORT	CONFIDENCE
FIX NOW · 2 Confirmed and worth the effort.				
P2	**No Organization structured data** Add Organization JSON-LD to the homepage in the server-rendered HTML: name, url, logo, sameAs (Wikipedia/Wikidata, LinkedIn, socials), contactPoint.	engineering	Hours	Confirmed
P2	**No analytics detected** Install analytics (and, for EEA traffic, a consent banner wired to Google Consent Mode v2).	marketing	Hours	Confirmed
VERIFY FIRST · 1 Serious if true, but this check is known to misfire.				
P1	**Privacy policy not found** Verify first: check links on the fetched pages and the sitemap before publishing anything. Then: Publish the privacy notice, link it in the global footer, and list it in the sitemap.	legal+marketing	Hours	Uncertain
MEASURE NEXT · 4 Not measured, or the result cannot be trusted.				
—	**DKIM not verified** List ESP selectors in probe config, or auto-probe common ones (google, selector1/selector2, k1, s1/s2, kl/kl2, shopify, mandrill, pm, sendgrid ...).	IT	Hours	Unknown
—	**Measure Core Web Vitals** No Chrome field data was available for this origin.	engineering	Weeks	Unknown
—	**Homepage links to broken pages** Rerun with a method that can return a definite result.	engineering	Hours	Unknown
—	**Homepage text is not extractable without JavaScript** Rerun with a method that can return a definite result.	engineering	Weeks	Unknown
BACKLOG · 7 Real, but low value for the effort.				
P3	**Homepage has no obvious call to action** Put one primary CTA above the fold.	marketing	Hours	Uncertain
P3	**Contact path not agent-readable** See conversion.demo_contact_signup_page.	marketing	Hours	Uncertain
P3	**Conversion page has no form or booking tool** Add a form or booking tool to the conversion page.	marketing	Hours	Uncertain
P3	**Security page not agent-readable** See trust.security_page.	security	Hours	Uncertain
P3	**Docs/API not agent-readable** Serve docs as static HTML or Markdown; consider llms.txt for docs only.	engineering	Days	Uncertain

PRI	ACTION	OWNER	EFFORT	CONFIDENCE
P3	**Important pages missing from sitemap** Add contact, legal and other key pages to the sitemap.	engineering	Hours	Uncertain
P3	**Pricing not agent-readable** See conversion.pricing_page.	marketing	Days	Uncertain

3 Strengths and notes

NOTE · I-02

llms.txt is not an AI-search lever

Present or not, llms.txt is not treated as an AI-search lever. Put the effort into entity data and server-rendered content.

STRENGTH · I-11

Browser security headers are in good shape (5/5)

The remaining gap is minor. Don't let it compete with marketing work.

SET ASIDE AS NOISE · 3

Reported by the scan but not worth acting on here.

FINDING	WHY IT WAS SET ASIDE	CHECK
Agent permission manifests are experimental. Missing agent-permissions.json is informational only and is not a required website standard.	Informational only: Not an adopted standard (2026)	agent.agent_permissions_manifest
No llms.txt was found. This is informational only — missing llms.txt is not a failure.	Informational only: No measurable AI-search effect; Google says it neither helps nor hurts (2026)	ai.llms_txt
A page without a price is not an offer-page finding.	Informational only: Google merchant listings; AI shopping surfaces read the same fields	seo.product_structured_data

4 Findings register

10 findings, ordered by severity.

REF	FINDING	CATEGORY	SEVERITY	WORK ORDER
F-01	Demo/contact path missing or not agent-readable	Agent readiness	MEDIUM	WO-02

F-07	Important pages missing from sitemap	Agent readiness	LOW	WO-05
F-08	Security/trust page missing or not agent-readable	Agent readiness	LOW	WO-06
F-09	No common analytics scripts detected	Conversion	LOW	WO-01
F-10	Security/trust page was not found	Trust	LOW	WO-06

MEDIUM

F-01 Demo/contact path missing or not agent-readable

Agent readiness · WO-02

WHAT WE FOUND No clearly readable demo/contact/signup page with a form or booking signal was detected.

BUSINESS IMPACT Agents and buyers may lack a clear lead-capture path.

TECHNICAL DETAIL candidates=['/', '/contact', '/demo', '/pricing']; reasons=['low_visible_text', 'missing_form_or_booking']

EVIDENCE path: / · reasons: low_visible_text, missing_form_or_booking

MEDIUM

F-02 Pricing page is missing or not agent-readable

Agent readiness · WO-04

WHAT WE FOUND No clearly readable pricing/plans page was detected for agents. This does not claim AI ranking or guaranteed agent conversion.

BUSINESS IMPACT Buyers using agents may struggle to find pricing details.

TECHNICAL DETAIL candidates=['/', '/contact', '/demo', '/pricing']; reasons=['low_visible_text']

EVIDENCE path: /pricing · reasons: low_visible_text

MEDIUM

F-03 No obvious homepage CTA found

Conversion · WO-01

WHAT WE FOUND The homepage does not appear to include a clear demo/contact/signup CTA.

BUSINESS IMPACT Visitors may leave without a clear next step.

TECHNICAL DETAIL No matches for demo/contact/signup/trial CTA phrases.

EVIDENCE cta matches: none

MEDIUM

F-04 No form or booking tool on conversion pages

Conversion · WO-01

WHAT WE FOUND	Conversion pages were found, but no form or common booking/form tool was detected.
BUSINESS IMPACT	Interested buyers may have no way to convert on-page.
TECHNICAL DETAIL	No <form> or known booking/form embed markers found.
EVIDENCE	pages checked: /, /contact, /demo, /pricing · has form or tool: no

MEDIUM

F-05 Privacy page was not found

Trust · WO-03

WHAT WE FOUND	The sampled pages do not link to a privacy policy.
BUSINESS IMPACT	Missing privacy information can reduce buyer confidence and create compliance risk.
TECHNICAL DETAIL	No OK response for candidates: ['/', '/contact', '/demo', '/pricing']
EVIDENCE	path: none · candidates: /, /contact, /demo, /pricing

MEDIUM

F-06 Terms page was not found

Trust · WO-03

WHAT WE FOUND	The sampled pages do not link to terms.
BUSINESS IMPACT	Missing terms can slow procurement and reduce buyer trust.
TECHNICAL DETAIL	No OK response for candidates: ['/', '/contact', '/demo', '/pricing']
EVIDENCE	path: none · candidates: /, /contact, /demo, /pricing

LOW

F-07 Important pages missing from sitemap

Agent readiness · WO-05

WHAT WE FOUND	Some important agent-relevant pages exist but were not found in the sitemap.
BUSINESS IMPACT	Key pages may be harder for crawlers/agents to discover.
TECHNICAL DETAIL	missing=['/security', '/docs']; sitemap_url_count=4
EVIDENCE	covered: /pricing, /demo, /contact · missing: /security, /docs

LOW

F-08 Security/trust page missing or not agent-readable

Agent readiness · WO-06

WHAT WE FOUND	No clearly readable security/trust page was detected for agents.
BUSINESS IMPACT	Buyers may not find security posture details via agent/search paths.
TECHNICAL DETAIL	candidates=['/', '/contact', '/demo', '/pricing']; reasons=['low_visible_text']
EVIDENCE	path: / · reasons: low_visible_text

LOW

F-09 No common analytics scripts detected

Conversion · WO-01

WHAT WE FOUND	No common analytics tools were detected. This is a warning only — some companies intentionally avoid analytics.
BUSINESS IMPACT	You may have limited visibility into traffic and conversions.
TECHNICAL DETAIL	No GA/GTM/Segment/HubSpot/PostHog/Plausible/Fathom/LinkedIn/Meta markers found.
EVIDENCE	analytics: none

LOW

F-10 Security/trust page was not found

Trust · WO-06

WHAT WE FOUND	No security or trust center page was found at common locations.
BUSINESS IMPACT	Security buyers often look for a dedicated trust/security page.
TECHNICAL DETAIL	No OK response for candidates: ['/', '/contact', '/demo', '/pricing']
EVIDENCE	path: none · candidates: /, /contact, /demo, /pricing

5 Mitigation work orders

Each work order groups findings that share a root cause. Confirm the capability is actually needed before changing site or DNS policy. A work order is done when every check listed under Verify returns PASS on rescan.

WO-01 **Fix revenue conversion paths**

MEDIUM

OWNER	EFFORT	RESOLVES	STATUS
marketing	Hours	F-03, F-04, F-09	Open

Objective. Make pricing, demo/contact, forms, CTAs, and analytics discoverable so buyers can convert. Includes: No obvious homepage CTA found; No form or booking tool on conversion pages; No common analytics scripts detected.

STEPS

1. Add a clear homepage CTA. ☐
2. Add a form or booking widget. ☐
3. Confirm analytics coverage if measurement is expected. ☐

VERIFY · CHECK ID	URL	EXPECTED
conversion.cta_present	https://example.com/	PASS
conversion.form_present	https://example.com/	PASS
conversion.analytics_detected	https://example.com/	PASS

WO-02 **Fix the contact path**

MEDIUM

OWNER	EFFORT	RESOLVES	STATUS
marketing	Hours	F-01	Open

Objective. The contact checks share one root. Includes: Demo/contact path missing or not agent-readable.

STEPS

1. Add a crawlable demo/contact page with a form or booking tool. ☐

VERIFY · CHECK ID	URL	EXPECTED
agent.demo_contact_agent_readable	https://example.com/demo	PASS

WO-03 Fix linked privacy and terms pages

MEDIUM

OWNER	EFFORT	RESOLVES	STATUS
marketing	Hours	F-05, F-06	Open

Objective. Publish or link the privacy and terms pages the sample could not confirm. Includes: Privacy page was not found; Terms page was not found.

STEPS

1 Publish a privacy page. ☐

2 Publish a terms page. ☐

VERIFY · CHECK ID	URL	EXPECTED
trust.privacy_page	https://example.com/	PASS
trust.terms_page	https://example.com/	PASS

WO-04 Fix the pricing page signal

MEDIUM

OWNER	EFFORT	RESOLVES	STATUS
marketing	Hours	F-02	Open

Objective. The pricing checks share one root. Includes: Pricing page is missing or not agent-readable.

STEPS

1 Publish a crawlable pricing page with visible HTML text. ☐

VERIFY · CHECK ID	URL	EXPECTED
agent.pricing_page_agent_readable	https://example.com/pricing	PASS

WO-05 Improve agent-readable buyer paths

LOW

OWNER	EFFORT	RESOLVES	STATUS
marketing	Hours	F-07	Open

Objective. Make pricing, demo, security, and docs pages easier for crawlers/agents to find and read (not a guarantee of agent conversion). Includes: Important pages missing from sitemap.

STEPS

1 Add important pages to the sitemap. ☐

VERIFY · CHECK ID	URL	EXPECTED
agent.important_pages_in_sitemap	https://example.com/sitemap.xml	PASS

WO-06 **Fix the security page signal**

LOW

OWNER	EFFORT	RESOLVES	STATUS
security	Hours	F-08, F-10	Open

Objective. The security-page checks share one root. Includes: Security/trust page missing or not agent-readable; Security/trust page was not found.

STEPS

1. Publish a crawlable security or trust page. ☐
2. Publish a security/trust page. ☐

VERIFY · CHECK ID	URL	EXPECTED
agent.security_page_agent_readable	https://example.com/security	PASS
trust.security_page	https://example.com/	PASS

6 Agent protocol

Level 2 of 5, Bot-Aware. 5 of 7 Content Site checks pass, a comparable score of 71. The ladder and presets follow isitagentready.com; results can differ because that scanner runs scripts in the page. This section does not affect the Webcheck score.
Its All Checks preset would count 5 of 15 (33), including API, OAuth and MCP files a content site does not need.

LEVEL	NAME	REQUIRES	STATUS
1	Basic Web Presence	Two of robots.txt, sitemap, Link headers	MET
2	Bot-Aware	AI bot rules and Content Signals	MET
3	Agent-Readable	Markdown negotiation	NEXT
4	Agent-Integrated	One of MCP Server Card, A2A, Agent Skills, API Catalog	—
5	Agent-Native	Two of Web Bot Auth, all four integrations, OAuth metadata	—

GROUP	PASSING
Discoverability	3 of 4
Content	0 of 1
Bot Access Control	2 of 2

TOP FIXES

1. Markdown negotiation (Proposal). When a request sends Accept: text/markdown, answer with a Markdown version of the page and Content-Type: text/markdown. Add Vary: Accept so caches keep the two apart.
2. DNS for AI Discovery (DNS-AID) (IETF draft). Publish ServiceMode SVCB or HTTPS records at _index._agents (or _a2a._agents, _mcp._agents) under your domain, signed with DNSSEC.

CHECK	RESULT	STANDARD	EVIDENCE
robots.txt	PASS	RFC 9309	robots.txt exists with User-agent rules
Sitemap	PASS	sitemaps.org	Valid sitemap at https://example.com/sitemap.xml
Link headers	PASS	RFC 8288	Link header with rel: alternate
DNS for AI Discovery (DNS-AID)	NOT FOUND	IETF draft	No SVCB or HTTPS records at the _agents entry points
Markdown negotiation	NOT FOUND	Proposal	Asked for text/markdown, got text/html
AI bot rules in robots.txt	PASS	RFC 9309	Rules for AI bots: ccbot, gptbot
Content Signals	PASS	IETF draft	1 Content-Signal line(s) in robots.txt
Web Bot Auth	NOT EXPECTED	IETF working group	Signatures directory not found (HTTP 404)
API Catalog	NOT EXPECTED	RFC 9727	API catalog not found (HTTP 404)
OAuth / OIDC discovery	NOT EXPECTED	RFC 8414	No OAuth or OIDC metadata at either path
OAuth Protected Resource	NOT EXPECTED	RFC 9728	Protected resource metadata not found (HTTP 404)
Auth.md	NOT EXPECTED	Proposal	auth.md not found (HTTP 404)
MCP Server Card	NOT EXPECTED	Draft (MCP SEP-1649)	No MCP Server Card at any candidate path
A2A Agent Card	NOT EXPECTED	A2A protocol	Agent card not found (HTTP 404)

CHECK	RESULT	STANDARD	EVIDENCE
Agent Skills index	NOT EXPECTED	Draft (discovery RFC v0.2.0)	No Agent Skills index
WebMCP	NOT EXPECTED	W3C community draft	Not seen in static HTML (tools registered by scripts at runtime are not detected)
ARD catalog	NOT EXPECTED	Proposal	No ARD catalog by robots.txt, link, well-known file or DNS
Personal Agent Protocol (Poppy)	NOT EXPECTED	Proposal	Poppy manifest not found (HTTP 404)

NOT EXPECTED marks capabilities for sites that run an API, an MCP server or an agent. They are listed for comparison only.

AVAILABILITY	RESULT	OBSERVED
availability.homepage_status	PASS	Homepage is reachable
availability.https_redirect	PASS	HTTP redirects to HTTPS
availability.response_time	PASS	Homepage response time
availability.staging_redirect	PASS	Homepage does not redirect to staging
availability.critical_url_status	PASS	Broken links are reachable

LINKS	RESULT	OBSERVED
links.homepage_broken_links	INFO	This page had no navigation links to validate.
links.critical_pages_broken_links	INFO	Broken-link checking on additional pages did not run because no other origin pages were fetched.

SEO	RESULT	OBSERVED
seo.noindex_homepage	PASS	Homepage is indexable
seo.title_present	PASS	Homepage title is present
seo.meta_description_present	PASS	Homepage meta description is present
seo.canonical_valid	PASS	Homepage canonical is valid
seo.open_graph_present	PASS	Homepage Open Graph tags are present

SEO	RESULT	OBSERVED
seo.robots_txt_reachable	PASS	robots.txt is reachable
seo.robots_blocks_critical_paths	PASS	robots.txt does not block critical paths
seo.sitemap_reachable	PASS	Sitemap is reachable
seo.noindex_critical_pages	PASS	Critical pages are indexable
seo.product_structured_data	INFO	A page without a price is not an offer-page finding.

TRUST	RESULT	OBSERVED
trust.privacy_page	WARN	The sampled pages do not link to a privacy policy.
trust.terms_page	WARN	The sampled pages do not link to terms.
trust.security_page	WARN	No security or trust center page was found at common locations.

CONVERSION	RESULT	OBSERVED
conversion.pricing_page	PASS	Public offer found
conversion.demo_contact_signup_page	PASS	Demo/contact/signup page is present
conversion.form_present	WARN	Conversion pages were found, but no form or common booking/form tool was detected.
conversion.cta_present	WARN	The homepage does not appear to include a clear demo/contact/signup CTA.
conversion.analytics_detected	WARN	No common analytics tools were detected. This is a warning only — some companies intentionally avoid analytics.

AI READINESS	RESULT	OBSERVED
ai.organization_schema	INFO	No organization-related structured data was detected on the homepage. This is about machine readability, not a claim about AI ranking or AEO performance.
ai.extractable_text	INFO	The homepage appears to have very little extractable text after stripping scripts and common chrome. This does not measure AI ranking or AEO performance.
ai.clear_company_description	PASS	Homepage has a clear company description signal
ai.llms_txt	INFO	No llms.txt was found. This is informational only — missing llms.txt is not a failure.

AGENT READINESS	RESULT	OBSERVED
agent.pricing_page_agent_readable	WARN	No clearly readable pricing/plans page was detected for agents. This does not claim AI ranking or guaranteed agent conversion.
agent.demo_contact_agent_readable	WARN	No clearly readable demo/contact/signup page with a form or booking signal was detected.
agent.security_page_agent_readable	WARN	No clearly readable security/trust page was detected for agents.
agent.docs_page_agent_readable	INFO	No clearly readable docs/API page was detected. This is informational by default.

AGENT READINESS	RESULT	OBSERVED
agent.important_pages_in_sitemap	WARN	Some important agent-relevant pages exist but were not found in the sitemap.
agent.important_pages_not_robots_blocked	PASS	Important pages are not robots-blocked
agent.stable_critical_urls	PASS	Critical URLs look stable
agent.ai_user_agent_robots_info	PASS	AI bot rules in robots.txt: present
agent.agent_permissions_manifest	INFO	Agent permission manifests are experimental. Missing agent-permissions.json is informational only and is not a required website standard.
agent.link_headers	PASS	Link headers: present
agent.dns_aid	INFO	Let agents find services through DNS. (IETF draft) Reported for information; it does not lower this site's score.
agent.markdown_negotiation	INFO	Return Markdown when an agent asks for it, HTML for browsers. (Proposal) Reported for information; it does not lower this site's score.
agent.content_signals	PASS	Content Signals: present
agent.web_bot_auth	INFO	Not expected for a content site; listed for comparison with agent-readiness scanners. (IETF working group)
agent.api_catalog	INFO	Not expected for a content site; listed for comparison with agent-readiness scanners. (RFC 9727)
agent.oauth_discovery	INFO	Not expected for a content site; listed for comparison with agent-readiness scanners. (RFC 8414)
agent.oauth_protected_resource	INFO	Not expected for a content site; listed for comparison with agent-readiness scanners. (RFC 9728)
agent.auth_md	INFO	Not expected for a content site; listed for comparison with agent-readiness scanners. (Proposal)
agent.mcp_server_card	INFO	Not expected for a content site; listed for comparison with agent-readiness scanners. (Draft (MCP SEP-1649))
agent.a2a_agent_card	INFO	Not expected for a content site; listed for comparison with agent-readiness scanners. (A2A protocol)
agent.agent_skills_index	INFO	Not expected for a content site; listed for comparison with agent-readiness scanners. (Draft (discovery RFC v0.2.0))
agent.webmcp	INFO	Not expected for a content site; listed for comparison with agent-readiness scanners. (W3C community draft)
agent.ard_catalog	INFO	Not expected for a content site; listed for comparison with agent-readiness scanners. (Proposal)
agent.poppy	INFO	Not expected for a content site; listed for comparison with agent-readiness scanners. (Proposal)
agent.protocol_level	INFO	This applies the published isitagentready.com level ladder to this scan's results. It is comparable to that scanner, not its result: that scanner runs scripts in the page and changes its checks over time. It does not affect the Webcheck score.

EMAIL	RESULT	OBSERVED
email.mx_exists	PASS	MX records exist

EMAIL	RESULT	OBSERVED
email.spf_exists	PASS	SPF record exists
email.spf_lookup_count	PASS	SPF lookup count is within limit
email.dmarc_exists	PASS	DMARC record exists
email.dmarc_policy	PASS	DMARC policy is enforcing
email.dkim_selectors	SKIP	DKIM was not confirmed. None of the common selectors published a key.

SECURITY	RESULT	OBSERVED
security.tls_valid	PASS	TLS certificate is valid
security.tls_expiry	PASS	TLS certificate expiry
security.hsts_present	PASS	HSTS header is present
security.csp_present	PASS	Content-Security-Policy header is present
security.frame_protection	PASS	Frame protection is present
security.referrer_policy	PASS	Referrer-Policy header is present
security.x_content_type_options	PASS	X-Content-Type-Options is nosniff
security.public_env_file	PASS	Public .env files are not exposed
security.public_git_config	PASS	Public .git/config is not exposed

ACCESSIBILITY	RESULT	OBSERVED
a11y.static_counts	PASS	Static accessibility counts

PERFORMANCE	RESULT	OBSERVED
perf.core_web_vitals	SKIP	Chrome field data was not available for this origin.
